

Pita Sauce (900gr dispenser)

Pita Sauce (900gr dispenser)

For your shawarmas and doner kebabs

The food vending trailer business originated in the USA, including the street vending hot dog carts that today are a trademark of the country!

As one would expect, given its success, the concept went global and Portugal was no exception. Food vending trailers are so common nowadays that they end up sharing a similar status to that of "normal" restaurants, in terms of people's preference - apart from casual customers, some people have their favourite food vending trailer!

There is also a new trend food vending trailer gastronomy - shwarmas and kebabs. Despite the particular aromas of these sandwiches, what really adds a nice touch of flavour to it is the sauce... and when it comes to these, Paladin has the answer!

Amaze yourself with our Samurai Sauce and try it on your shawarma, for instance. You will enjoy it...
